RECORD STATUS

Issued on the Assignee’s instructions and recorded under certificate ID LO-CR-2026-0185. The conditions in Section 2 are recorded as satisfied: the certificate fee of US $499.00 plus sales tax at 8.25% (US $41.17), a total of US $540.17, was settled on 21 October 2026 by two payments - US $300.00 (invoice DQVWPQEB-0001) and US $240.00 (invoice JGWSNYPX-0002) - totalling US $540.00, with the US $0.17 balance waived by LogoOrbit. The Assignee is M-Tech Electric, LLC, a commercial electrical contractor in Houston, Texas, represented by its owner, Brian Montemayor. Third-party claims reported to LogoOrbit are noted in Exhibit B; they bear on the trademark particulars and do not alter the copyright transferred by this Agreement.

1. Definitions

“Work” means only the approved final logo artwork specifically identified in Exhibit A, together with the listed deliverables. “Unused Concepts” means drafts, rejected directions, sketches, and alternatives not listed in Exhibit A. “Third-Party Materials” means fonts, stock assets, software, templates, or other material owned or licensed by someone other than the Assignor.

2. Conditions to Effectiveness

The assignment in Section 3 takes effect only after: (a) the Assignee has paid the separate copyright certificate fee of US $499; (b) all invoices for the underlying logo project have been paid in full; (c) the final Work has been approved; and (d) this Agreement has been completed and signed by authorized representatives of both parties. Before all conditions are satisfied, any concepts or previews are provided solely for private evaluation and may not be published, distributed, sold, registered, or used commercially.

3. Assignment of Copyright

Subject to Section 2, the Assignor irrevocably assigns to the Assignee all of the Assignor’s right, title, and interest in the Work, including the exclusive rights to reproduce, adapt, distribute, display, and otherwise exploit the Work throughout the world for the full term of copyright and any renewals or extensions. The assignment includes the right to apply for copyright registration in the Assignee’s name and to enforce the assigned rights for acts occurring on or after the Effective Date.

4. Commercial Use Authorization

Once effective, the Assignee may use the Work publicly and commercially in any lawful medium, including websites, social media, advertising, packaging, signage, merchandise, and business documents, without an ongoing royalty payable to the Assignor. This authorization is part of the assignment and does not extend to any excluded material.

5. Excluded Material and Reserved Rights

The assignment does not include Unused Concepts, the Assignor’s pre-existing tools, processes, templates, know-how, or Third-Party Materials. Applicable third-party licence terms continue to govern those materials. The Assignor retains no ownership interest in the Work after the assignment becomes effective, except for any portfolio-display permission separately stated in the service terms or agreed in writing.

Representations, administration & signatures

6. Assignor Representations

The Assignor represents that it has authority to enter into this Agreement and, to its knowledge, the human-authored portions of the Work created by it are original and have not previously been assigned. This Agreement does not guarantee copyright registrability, trademark registrability, non-conflict with every third-party right, or acceptance by a government office.

7. Client-Supplied Material

The Assignee represents that it has permission to use every name, slogan, image, sketch, font, or other item it supplied for the project. Rights in client-supplied material are not created or expanded by this Agreement, and the Assignee remains responsible for claims arising from that material.

8. Moral Rights

To the maximum extent permitted by applicable law, the Assignor waives and agrees not to assert moral rights or similar rights in the Work. Where a waiver is not legally effective, the Assignor consents to reasonable modification and use of the Work by the Assignee consistent with this Agreement.

9. Further Assurances

Each party will sign reasonable additional documents needed to confirm the transfer described here. Any government copyright registration, recordation, filing fee, or trademark filing is separate from this Agreement unless expressly included in a written order. The particulars recorded in Exhibit B are held for that purpose and are not themselves an application.

10. Governing Terms

This Agreement, Exhibit A, Exhibit B, the applicable LogoOrbit service terms, and any signed statement of work form the complete agreement concerning ownership of the Work. If they conflict, the later document signed by both parties controls. Amendments must be in writing and signed by both parties. Electronic signatures and counterparts are permitted to the extent allowed by applicable law.

By signing below, each party confirms that it has read this Agreement and that the signer is authorized to bind the named party.
